

# BRAINSTORMING – IDEAS

## BR ASHWINKUMAR

- To improve understanding by avoiding intermediaries, establish direct connections between students and universities.
- References and details about universities should be provided from official websites.

## ADITHYA V

- An interactive and user-friendly user interface that performs as the user would expect it to in order to provide a sense of familiarity.
- include the courses that universities provide.

## DHAKSHANAMOORTHY S

- posting college reviews and comments on the platform from former students, current students, and teachers.
- verification of the student information given to the universities.

## HARIHARAN N

- Providing information on scholarship details and fee reductions based on student performance.
- supplying filtering based on geography, courses offered, and university location.
